H TECHNICAL BULLETIN

HAS™ Inboard Shock Absorber Option

SUBJECT: Service Kits 57784-001, 57784-002, 57784-003, 57784-004

LIT NO: SEU-9501

DATE: February 2017

REVISION: C

IMPORTANT NOTICE

Hendrickson offers the option to relocate shock absorbers inboard on the HAS™ 40K and 46K suspensions. This option is ideal for those operators requiring greater rear suspension clearance in applications such as dump trucks used in paving operations or other vocational applications that may require a minimal amount of rear frame length or suspension overhang.

FIGURE 1

HAS Inboard Shock Option for 40K and 46K Capacities Not designed for HAS 40K LH suspension

The HAS inboard shock absorber option allows the user to utilize the vehicle in certain vocational applications. For more information contact your local Hendrickson parts supplier, truck dealer or contact Hendrickson.

Four separate service kits are available for HAS 40K • 46K capacity suspensions to be installed only on the rear axle, see Figure 1. These service kits are not designed for the on-highway HAS 40LH suspension. Refer to Table 1 for service kit part numbers, contents and axle dowel pin center dimensions.

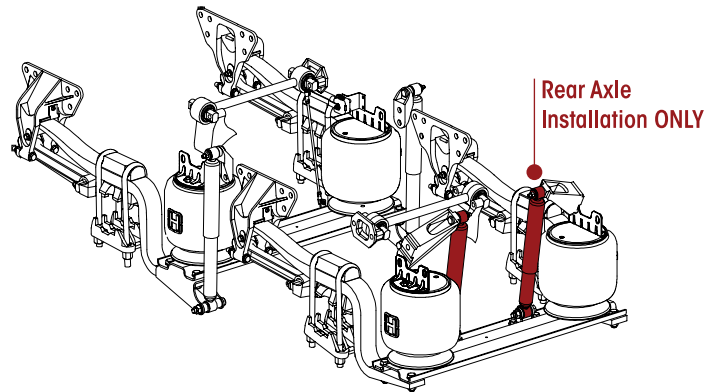

TABLE 1

Kit Part Number	Axle Dowel Pin Centers	Shock Absorber	Cross Channel Assembly	Shock Bracket Assembly with Fasteners
57784-001	40.00"	60670-007	57773-001	57328-001
57784-002	40.25"		57773-002	
57784-003	40.50"		57773-003	
57784-004	40.625"		57773-004	

For complete maintenance and safety instructions, refer to Hendrickson HAS Technical Publication 17730-212, available online at www.hendrickson-intl.com.
