FREIGHTLINER

VENDOR COMPONENTS

HENDRICKSON PRIMAAX® EX

With its rugged, weight efficient design, PRIMAAX® EX is a premium heavy-duty rear air suspension that delivers advanced suspension technology for the rigorous demands of vocational, severe service and heavy haul applications. PRIMAAX EX offers a premium ride and optimal performance by adjusting to both the load and road conditions, while demonstrating outstanding diagonal wheel articulation for superior off-road mobility, making the PRIMAAX EX an excellent choice for Freightliner severe duty trucks. The system features a new robust structural design with optimized suspension geometry for improved durability, reliability and handling characteristics. Structural beams form a solid connection with the square cross brace to form a rigid torsion and stabilizer system. PRIMAAX EX minimizes suspension induced driveline vibration and

significantly controls suspension windup and corresponding frame rise. Premium, heavy-duty rubber bushings require no lubrication and are performance tested for longer service life.

PRIMAAX EX is available in capacities of 23,000 and 26,000 lbs. (single-axle), 46,000 and 52,000 lbs. (tandem-axle) and 69,000 lbs. (tridem-axle). The system is ideal for a variety of grueling vocational and severe-duty applications, including construction, refuse, mixer, logging and heavy-haul applications.

The World Rides On Us®

VENDOR COMPONENTS

HENDRICKSON PRIMAAX® EX

MAAXimize Performance and Durability

Genuine Hendrickson Torque Rods

- Optimized configuration helps improve handling and roll stiffness for expanded applications
- Premium retained rubber bushings for increased service life and resistance to walkout
- Alternative rods available for disc brake use

QUIK-ALIGN®

- Allows for easy axle alignment without shims
- Reduces maintenance time and helps extend tire life

Axle Connections

- D-pin axle connection decreases torsional axle stress for reduced maintenance and increased joint integrity
- Integrated axle stop contact pads reduce axle stress

Air Springs

- Large volume, low frequency design for improved ride
- Advanced design air springs lift and support the load with less air pressure

Structural Beams

- Redesigned beams utilize premium materials to improve durability
- Robust rubber bushings improve service life and eliminate lubrication requirements

Heavy-Duty Shock Absorbers

- Positioned and tuned for optimum damping characteristics

Cross Beams

- Seamless fabrication technology forms a robust torsion system with structural beams, improving stability

PRIMAAX® EX SPECIFICATIONS

Suspension Capacity	Axle Spacing	Data Code	GCW Rating	Site Travel Rating	Axle Configuration
23,000 lbs.		622-1H0	95,000 lbs.	30,000 lbs.	Single
26,000 lbs.		622-1H1	142,000 lbs.	33,000 lbs.	Single
46,000 lbs.	54 / 60 / 72	622-1H2	190,000 lbs.	60,000 lbs.	Tandem
52,000 lbs.	54	622-1H3	245,000 lbs.	66,000 lbs.	Tandem
69,000 lbs.	54	622-1H4	See Axle Manufacturer Recommendation	90,000 lbs.	Tridem

PRIMAAX EX is available on the following Freightliner models: Business Class, M2 106, M2 112, 108SD, 114SD, 122SD and Coronado 132.
