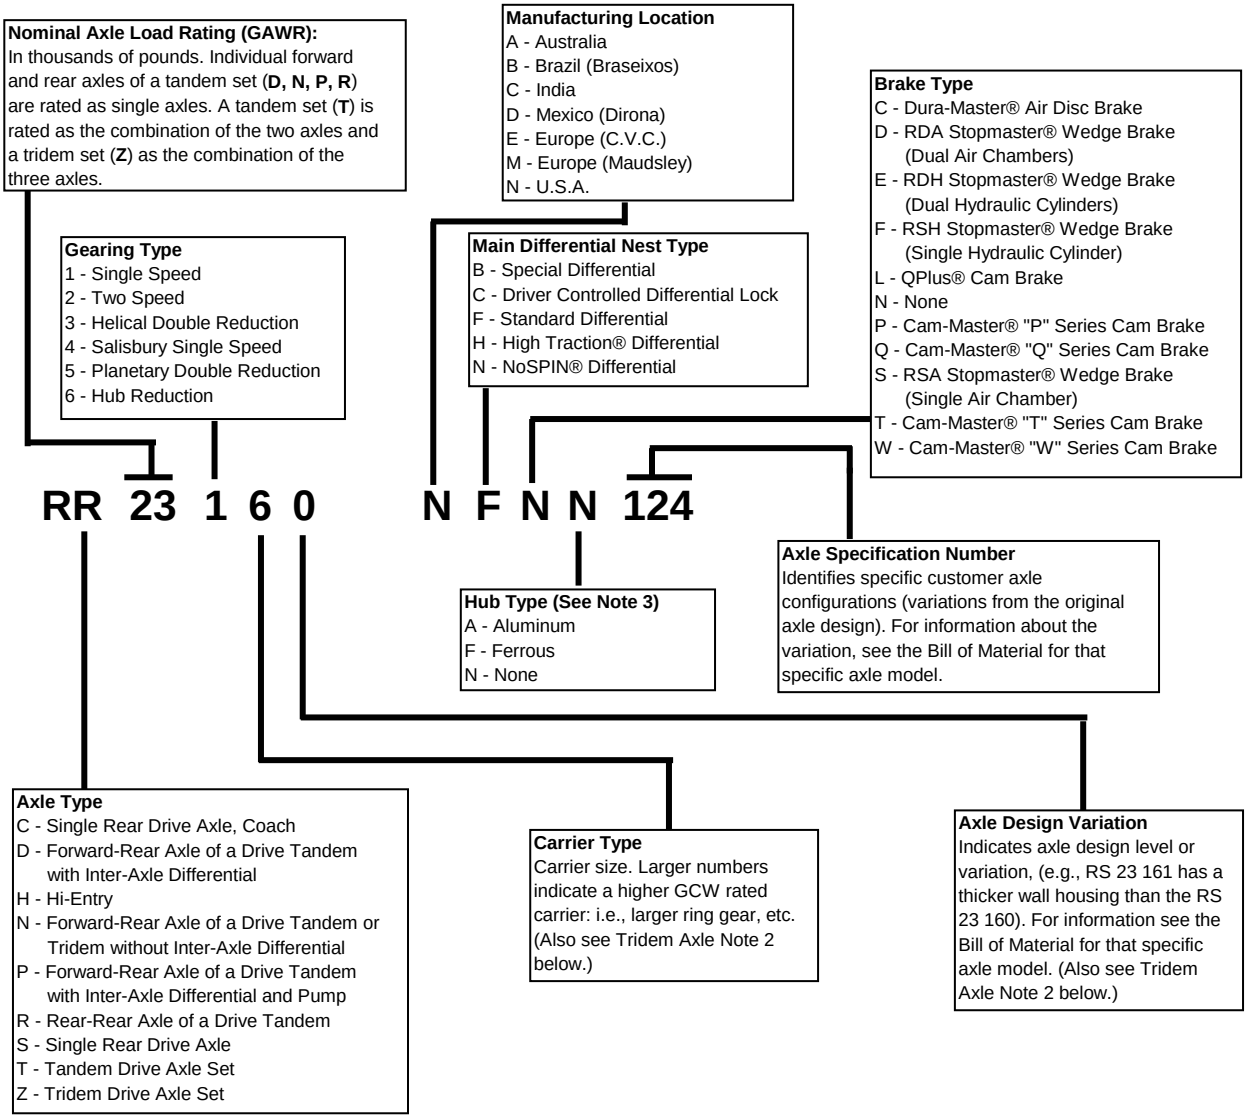
Model Numbers and Designations

Axle models are identified by a letter and number system. The letters and numbers give important information about the specific axle model.

The first seven positions of the designation identify a basic axle model, while the second group of letters and numbers identify particular specifications.



Nominal Axle Load Rating (GAWR):
In thousands of pounds. Individual forward and rear axles of a tandem set (**D, N, P, R**) are rated as single axles. A tandem set (**T**) is rated as the combination of the two axles and a tridem set (**Z**) as the combination of the three axles.

R - Rear-Rear Axle of a Drive Tandem
S - Single Rear Drive Axle

Z - Tridem Drive Axle Set

Carrier Type
Carrier size. Larger numbers indicate a higher GCW rated carrier: i.e., larger ring gear, etc. (Also see Tridem Axle Note 2 below.)

Axle Design Variation
Indicates axle design level or variation, (e.g., RS 23 161 has a thicker wall housing than the RS 23 160). For information see the Bill of Material for that specific axle model. (Also see Tridem Axle Note 2 below.)

NOTE 1:
If a complete axle designation is not required, use the first seven positions of the model designation to identify the basic axle model.
EXAMPLES OF BASIC AXLE MODELS:

RS 17 140 - Single Rear Drive, 17,000 lb., Single Speed, 15" Ring Gear, 140 Carrier Model.

NOTE 2, FOR TRIDEM AXLES ONLY:
For a Tridem Drive Axle Set (**RZ**), the number in the sixth position designates the carrier in the first axle. The number in the seventh position designates the carriers in the second and third axles.

NOTE 3:
Some axle designations or specifications do not have a hub type code.

HOW TO USE THIS CATALOG

- There are 36 basic carriers covered in this catalog:

3200-C-1511	3200-P-1706	3200-C-1823	3200-V-1894	3200-K-2117
3200-Z-1560	3200-R-1708	3200-E-1825	3200-W-1895	3200-L-2118
3200-P-1628	3200-V-1712	3200-Q-1837	3200-Y-1897	3200-J-2137
3200-J-1648	3200-W-1713	3200-H-1854	3200-J-1908	3200-K-2138
3200-T-1658	3200-X-1818	3200-J-1856	3200-K-1909	
3200-V-1660	3200-Y-1819	3200-K-1857	3200-D-1928	
3200-K-1701	3200-Z-1820	3200-L-1858	3200-E-1929	
3200-M-1703	3200-A-1821	3200-T-1892	3200-J-2116	

  Major assembly differences in a carrier are indicated by the different assembly level numbers in front of the base carrier number, for example, A1-3200-V-1894 and A4-3200-V-1894. The Axle Models-Carriers-Features chart inside this front cover lists all the variations covered in this book.

  Note: The carriers listed in this catalog do not include yokes. A yoke is a major assembly difference, therefore, a carrier sold with a yoke has a different assembly level number than the same carrier without the yoke.

- The charts for carriers, output shafts, and housings include the following information:
  - An exploded view of each assembly, keyed to the parts list
  - A description of each part
  - Parts sold as assemblies that include other parts
  - Which carriers or axle models the part is used on
  - The quantity of the part used on the carrier or axle
  - The part number of each item
  - Whether the part is available in a kit

- **Carrier parts:**
  Determine which chart and figure (1 or 2) applies to your carrier by using the following sources of information.
  - Identification tag installed on the carrier
  - Axle Models-Carriers-Features Chart
  - Pictures and descriptions of the carriers inside the front cover and at the beginning of Chart 1 and Chart 2

- **Output (thru) shafts:**
  This chart covers the output shafts for the forward axles of all tandems. Note that the output shaft assembly or its components are only sold as separate items. The output shaft is not included with the purchase of a carrier or housing.

- **Housing Assemblies and Wheel End Parts:**
  This chart covers the housing assemblies and wheel end parts for all axles. The parts are listed according to axle models that are used on 160, 161 and 164 series axles.

- **Axle shafts:**
  The axle shafts are grouped in sets (L.H. and R.H.) according to the axle models they are used on. Many axle shafts are used on more than one axle model. The axle shafts are also listed by part number with dimensions.

- **Yokes and Flanges:**
  There are four charts that cover full round bearing yokes, wing bearing yokes, Easy Service yokes, and flanges. Each chart lists the yokes or flanges used on each model. The yokes and flanges are listed by dimensions.

- **Kits:**
  The first chart in this section lists all the kits available for each axle model and carrier. Following that chart, the kits are sequenced according to the kit number and list the contents of each kit.

- **Numerical Parts List:**
  This section lists every part number along with the page(s) on which the part is listed.

The part number supercessions listed here reflect product improvements made in several key areas. Several of these product improvements are non-interchangeable at the component level, in these cases kits have been developed to ease your transition to the new designs.

With the exception of reverse shift carriers built for Navistar, all carriers equipped with driver controlled main differential lock now have a screw in shift cylinder. The Interaxle differential shift cylinder for these carriers is also a screw in type.

* No Longer Available - can use steel (malleable) version.

MERITOR AFTERMARKET PARTS WARRANTY

We warrant all new parts for one year from date of shipment to the buyer against defective material or workmanship (but not against damage caused by accident, abuse or improper installation, maintenance or repair) when such parts are used on vehicles the specifications of which have been approved by our Engineering Department.

As the exclusive remedy under this warranty, we will, at our option, repair or replace such parts free of charge, or take back the nonconforming parts and refund the monies paid by buyer for such parts, if found on examination by us to be nonconforming and if any necessary return charges are prepaid.

If it is necessary to return any parts under this warranty, buyer agrees not to make any deduction on account thereof from remittances on current accounts while claims are in the process of disposition. Any expense incurred without our consent for repairs or replacement will not be allowed.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS, IMPLIED OR STATUTORY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE. IN NO EVENT SHALL SELLER BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE.

Only genuine Meritor replacement parts are covered by this aftermarket parts warranty.
